Session 1

ECONOMIC SECURITY IN A FAST-CHANGING ENVIRONMENT

- Re-defining economic security
- What is technological sovereignty?
- The US-China quest for technological supremacy, and Europe's options
- Growing interdependence in a more fragmented world: the paradox of chokepoints in action?

11:00-11:30am

Coffee break

11:15am-13:00pm

Session 2

SKILLS, ENERGIES AND INDUSTRY: A BOTTOM-UP APPROACH TO ECONOMIC SECURITY

- From industrial policies to industrial strategy: an integrated approach
- AI and Energy: the importance of a growing link
- Academia and think tanks: laying the groundwork and cultivating talents
- From startups to industrial niches: the challenge of growth

Closing remarks

13:00pm

Buffet Lunch
